## Thermal Printer for Vending

GP58V, a compact-size design, is installed on the vending machine that needs the functionality of output a receipt while the transaction completed. The friendly user interface of built-in print-button and the adjustable paper length function, the user can easy and quick operate GP58V to increase the efficiency of paper-use and reduce the maintenance cost.

With a DAB (ICT's Data Audit Box) installation, it can satisfy the operator not only the requirements of audit transaction (DAB) but also to print out the receipt/ coupon for the vending machines.

Both coupon and receipt, the format including the logo, text contents and QR/ bar code, etc, can be set-up by the user. The downloadable design that the operator can save or upload the printing format/settings between GP58V and utility tool via a USB pen-drive would considerable educe the maintenance efforts.
